Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner noted that as presently recited, the limitations of claim 16 could be met by a device such as a laptop computer that operates wirelessly using a wireless network that it can pick up, and that is running some of the well-known peer-to-peer file sharing software on it.

Such a laptop could easily be carried in a car and thus meet the limitations of claim 16. The Examiner suggested that a limitation be added (such as is found in the other independent claims) that a transceiver is used that is actually associated with the automobile which receives this music file, clarifying that the arrangement cannot simply consist of a laptop or other portable device that is carried in the vehicle.

The Applicant agreed to this amendment, which is made herewith..
